

# DESIGNING LASTING MEMORIES IN 4 SIMPLE STEPS

# GETTING STARTED

When it comes to creating a custom pool, where ordinary days become unforgettable memories, there are four main components to consider: *Shape, Size, Color* and *Landscaping*.

## 1

### SHAPE

The great thing about building a new pool is that we get to design the shape and style that is unique to you and your yard. Whether you want a geometric shape or a more fluid outline, you get to choose the shape that will be a beautiful backdrop for special moments with friends and family. Did you know that the shape of your pool does not impact the price of the pool?

#### Geometric vs. Freeform

## SIZE

When determining the size of your pool it is important to consider both the activities that will occur in and around the pool and the appearance of your outdoor space. You will want to choose a size that fits your lifestyle today and continues to compliment your lifestyle for years to come. It is important to select a pool size that does not overwhelm your backyard, but is the perfect size for special moments, morning coffee and evening sunsets.

## COLOR

The color of a swimming pool can create a certain look or feel to your outdoor living space. It is a key factor in overall pool design and can transform the visual effects. Imagine having a pool space that conjures images of the turquoise waters of the Caribbean or the dazzling beach sand of St. Ives.

Why travel to these exotic places when you can create the perfect destination to create memories in your own backyard.

Aruba Blue Glacier

Boca Blue

Catalina Blue

Clearwater White

\*Color tones and shades can vary slightly due to time of day and depth of pool.

## LANDSCAPING

The pool alone will not make your vision a reality. It is the landscaping around the pool that helps everything come together. Putting some effort into the pool landscaping can turn your backyard into a gorgeous paradise. Choosing a look or theme will help you decide what type of landscaping to place around the pool.
