Shasta Stone & Shasta Sand are natural aggregate products and will vary slightly in tone and color depending on the time of the day and depth of pool. This document is only a guide to assist Shasta customers in the selection of their pool's finish. Finishes should be seen in a pool in person to get the most accurate idea of what your finish will look like. Your designer will be happy to assist in this process. Shasta Stone & Shasta Sand are exclusively available from Shasta Pools.
